PRO-2 OIL TREATMENT™

Product # 93450

Enhances Motor Oil to Stop Oil Burning and Restore Power in Older Vehicles

THE PROBLEM:

A common problem with older vehicles is excessive oil burning and loss of power and performance due to lost compression. Increased fuel dilution and crankcase blow-by rapidly depletes the additives in the oil which leads to increased oxidation, deposit formation, and engine wear.

THE SOLUTION:

PROTEX by BARDAHL® PRO-2 Oil Treatment™ is formulated for older, higher mileage engines that are burning oil, operating under heavy loads or in extreme high temperature conditions. Using proprietary 'polar attraction' technology, this formulation provides extra anti-wear and anti-friction protection that extends the effectiveness of the lubricant. Extra inhibitors help control oil oxidation, decrease deposit formation, and reduce bearing corrosion. This special solution minimizes wear and enhances overall engine performance while providing extra lubrication protection for city driving and heavy duty operation.

THE BENEFITS:

- ⇒ Thickens oil to control excessive oil consumption and improve high temperature lubrication
- ⇒ Restores compression and engine power to improve performance
- ⇒ Boosts anti-wear, anti-friction and extreme pressure performance of the oil
- ⇒ Increases oxidation and corrosion protection of the oil
- ⇒ Safe to use in gas or diesel engines and will not harm plastic or Teflon components
- ⇒ Compatible with all types and grades of motor oil, including synthetics.

DIRECTIONS:

Add at each oil change and between oil changes as needed. Pour contents into crankcase prior to filling with new oil. One bottle will treat up to 5 quarts of motor oil. For newer vehicles, use **PROTEX by BARDAHL® PRO-1 Oil Supplement™ #93400** to enhance performance. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

PRODUCT SPECIFICATIONS:

Product #	93450
UPC Code	0 76906 93450 3
Size	11 oz (325 ml)
Case Pack (Qty / Wt)	12 / 10 lbs
Case UPC	30076906943504
Color	Light Amber
Viscosity	500 cSt. @ 100°C
Specific Gravity	0.89
Flash Point	>356°F / >180°C

BARDAHL Manufacturing Corp. 1400 N.W. 52nd Street, Seattle, WA 98107 888-227-3245 protexbybardahl.com
