

Cindol® 4611

Vanishing lubricant

DESCRIPTION

Cindol 4611 is a vanishing type lubricant used for light stamping of ferrous and non-ferrous metals. Its odorless carrier solvent evaporates readily and leaves a minimum residue. This means no cleaning is necessary after the part is stamped.

Cindol 4611 has been ultra filtered to give a clean, sharp appearance. It has been inhibited for the prevention of copper corrosion. Excellent lubricant for copper, brass, bronze, aluminum, mild steels. Its unique ND additive drastically reduces metal pickup and galling.

FEATURES / BENEFITS

- Contains unique "ND" lubrication additive providing good lubrication on light duty stamping of both ferrous and non-ferrous metals.
- Odorless carrier solvent evaporates readily leaving a minimum residue so no cleaning is necessary after part is stamped.
- Contains unique "ND" lubrication additive to reduce metal pickup and galling for improved tool and die life.

DATA (TYPICAL VALUES)

Appearance	Clear liquid
Odor	Bland
Flash Point, °F	
Closed Cup	125°F
Open Cup	135°F
Pounds per Gallon @ 60°F	6.6
