

Olympus Super Kut 5418/100

Super Kut 5418/100 cutting oil is one of our most versatile blends for all purpose metalworking applications. This cutting oil may be used for threading, turning, grinding, milling, stamping, and many other operations on a wide variety of alloys with machinability ratings from mild to moderate.

Super Kut 5418/100 is non-gumming, has excellent workpiece visibility and a very mild odor. This cutting oil contains lubricity and extreme pressure agents that give excellent tool and wheel life. The oil is a proven performer on all metals and will not stain copper or brass.

Typical Physical Characteristics:

Appearance	RED
Viscosity @ 100 °F	120
Sulfur Content	present
Chlorine Content	present
Lubricity Content	present
Flash Point, F	360
Copper Corrosion ASTM D-130	1-b
V.O.C. Content ASTM E1868-10	37 g/l
Subject to usual manufacturing tolerances
