

Olympus Super N-125

Super Kut N-125 is a clear cutting oil for light to medium-duty machining. This oil is made with a blend of high-flash base oils and an added anti-mist agent that significantly lowers misting when compared to competing products.

Super Kut N-125 is designed for machining nonferrous and free machining materials such as brass, copper and some aluminum jobs. It is completely non-tarnishing and non-staining, with a very mild odor and translucent appearance. This oil will not stain or etch copper or brass.

TYPICAL SPECIFICATIONS

VISCOSITY, SUS @ 100°F	125
VISCOSITY @ 40°	25
FLASH POINT @ 100°F	410
COLOR, ASTM D-1500	1.0
COPPER CORROSION, ASTM D-130	1-A (NONE)
Subject to usual manufacturing tolerances
