COOLING SYSTEM CONDITIONER™

Product # 94610

Removes Rust and Lubricates the Pump to Eliminate Noise

THE PROBLEM:

Over time a vehicle's cooling system will gradually build-up deposits of rust, scale, and sludge. This can reduce the efficiency of the cooling system and lead to radiator failure or other costly repairs.

THE SOLUTION:

PROTEX by BARDHAHL® Cooling System Conditioner™ is an easy to use chemical solution that works while the engine is running. This formula contains a radiator rust inhibitor that restores the pH level to protect against corrosion. The solution removes and prevents rust, corrosion and sludge deposits. It also lubricates the water pump, bearings and seals, which eliminates noise caused by dry bearings and extends the life of the cooling system components. It prolongs coolant life and protects all cooling system components by neutralizing the formation of acids. The solution is safe to use in all gasoline and diesel engines, and works with all types of coolant.

THE BENEFITS:

- ⇒ Removes and inhibits rust and corrosion from forming in the radiator and cooling system
- ⇒ Lubricates the water pump bearings and seals to improve its operation
- ⇒ Restores reserve alkalinity to the coolant
- ⇒ Helps control thermal degradation of coolant
- ⇒ Compatible with all types of coolant and anti-freeze solutions

DIRECTIONS:

Carefully remove the radiator cap and adjust the coolant level to allow the addition of the entire contents. Replace the cap and run the engine for 15 minutes to circulate the solution in the system. If the radiator is in extremely poor condition; drain and flush the system with **Cooling System Cleaner™** # 94600. Refill the radiator with coolant or a 'water/anti-freeze' mixture and add the conditioner. Perform the service every 30,000 miles or at 2 years, whichever comes first. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

PRODUCT SPECIFICATIONS:

Product #	94610
UPC Code	0 76906 94610 0
Size	11 oz (325 ml)
Case Pack (Qty / Wt)	12 / 12 lbs
Case UPC	30076906946101
Color	Water White
pH Level	10
Specific Gravity	1.00
Flash Point	N/A
